

FAASafety Team--FAAST presents:

THUNDERSTORMS, MICROBURSTS, and WIND SHEAR

Enjoy and learn from a video enhanced discussion focusing on these Dangerous Weather Conditions that need your utmost care and consideration. Microbursts can be sudden and severe! Low level wind shear can be deadly.

We'll Review the Proper and Professional Techniques for Flight Safety, that need to be considered for both local, and for cross country flying.

Directions: Continental Aviation is the forth building east of Balboa Blvd. on the south side of Stagg St. Fly-in: Park at any of the FBOs on the airport. Advanced contact recommended. Some waive ramp fees for a FAASTeam safety program. Most offer courtesy transportation.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
